Product Grading

Production
High performance industrial tooling designed for continuous use applications on machine tools where repeatability and long tool life are of critical importance.

Professional
Industrial tooling that has enhanced features and benefits demanded by craftsmen and professional users.

Industrial
Designed for regular use in industrial applications. Manufactured to stringent quality levels and international standards.

Workshop
Standard quality tooling for use by tradesmen and generally industrial use.

Maintenance
Products designed for general maintenance of machines, workshops, garages and some household applications.

Home Improver
DIY quality tooling. Designed for home use and light industrial applications.

EDISON Lithium Coin Battery

These lithium coin batteries are commonly used in car security (alarm/key fobs), organizer back-up batteries for PDA such as Psion etc., glucometers, cameras, electric thermometers, calculators, computer equipment (memory back-up battery), toys, accutron, communication equipment, watches, clocks, car radios, video camera data packs. They are the same size and replace the following batteries: DL2032, E-CR2032 and SB-T51.

Battery Size	Volt	Pack Quantity	Order Code EDI-904	Price/1 RND
CR2032	3V	1	-3240K	0.60

Silver Oxide Button Battery

These popular silver oxide batteries are commonly used in watches, calculators, toys and small electrical equipment. With exactly the same dimensions, they can replace: D303, D357, Gs13, 228, 357, 280-62, J, SB-B9, SR1154, SR44, SR44W, SR44H, 541, SP357, V357, 4276, KS76, 280-8, SR76E and 1131SO batteries.

Battery Size	Volt	Pack Quantity	Order Code EDI-904	Price/1 RND
SR44	1.5V	1	-4000K	43.80

Alkaline Batteries

A range of alkaline batteries that offer significantly longer life than zinc carbon batteries in high-drain appliances. Suitable for torches, radios, answerphones, toys, calculators, pagers, remote controls, smoke alarms and many other portable electrical appliances.

ALKALINE

EDISON LED Torches

Six super bright white LEDs. 100,000 hour LED life. Battery life up to 50 hours (continuous). Precision machined high strength aluminium alloy case. Twist on/off. Corrosion-resistant anodised finish. Water and impact resistant.

Complete with wrist strap.

All joints sealed with 'O' rings. Engineered and superbly balanced to give many years service.

NEW

Never needs a replacement bulb

Model Number	Casing	Batteries Required	Length (mm)	Order Code EDI-904	Price/1 RND
TAL010S	Aluminium	2x AA	175	-2550K	155.40
TAL010B	Black	2x AA	175	-2560K	143.80

Aluminium Soft Grip LED Torches

Water and impact resistant anodised aluminium case with rubber grip. Ultra bright long life LEDs with optical lens to produce a clear white light. Positive push button operation. All joints sealed with 'O' rings.

Model Number	Batteries Required	Length (mm)	Order Code EDI-904	Price/1 RND

Pocket Torches

Corrosion-resistant anodised finish. Extra bright, extra long life bulbs. Convert to lantern style lamp. Spot to flood adjustable. Non-slip knurled grip. Aircraft-grade aluminium. Waterproof and shockproof. Twist action on-off control. Spare bulb inside tail cap. Can be fitted to a key ring. Blister packed.

Batteries Required	Length (mm)	Weight each	Order Code EDI-904	Price/1 RND
1x AAA	87	40g	-0050K	83.90

Flexible Lights

Magnetic Flexible Light

Anodised aluminium handle and head, water-resistant and shockproof. Heavy duty magnet - tested up to 2kg. Body can be twisted in any direction. Spare bulb included.

Adjustable Beam Flexible Light

Anodised aluminium handle and head, water resistant and shockproof. Flexible body can be twisted in any direction. Spot to flood adjustable. Spare bulb included. With a keyring clip.

Description	Batteries Required	Length (mm)	Order Code EDI-904	Price/1 RND
Magnetic	2x AA	400	-0600K	305.50
Adjustable Beam	2x AA	400	-0700K	224.80

Combi Stretch Light

TCS060

6 LED stretch torch that can be used as either a torch or a lantern. Push the housing together for a focused beam of light, or stretch the torch to illuminate a wider area. Ultra bright energy-saving LEDs give a typical battery life of approximately 24 hours. Comes complete with a cord wrist strap. Requires 4x AAA batteries (not included).

Overall length: 115mm.

Pull the housing open to illuminate a wider area or push to close for a focused beam of light

GROUP 904 TORCHES

KENNEDY 24 LED Worklight

LWL024

24 super bright LEDs. Magnetic base. Soft touch durable composite casing. 360° swivel hanging hook for hands free applications. 3 x AA batteries supplied. Lasts for 4 - 5 hours approx. IP20 moisture protection.

Length: 208mm.

NEW

Type	Weight each	Order Code	Price/1 RND
3x AA Batteries	260g	KEN-503	-5110K
			59.40

30+ 7 LED Rechargeable Worklight - 230V

37 super bright LEDs. Dual use as an inspection lamp or directional torch. Moisture protection IP44. Two magnets and two 360° swivel hanging hooks for hands free applications. Lower quarter of lamp rotates 180° to use as a stand. Supplied with AC/DC mains charger and 12V DC in-car charger for portable charging. 7.2V (800mAh) Lithium-Ion battery. Main light lasts up to 4 hours, and directional light lasts up to 20hrs, when fully charged.

NEW

EDISON Rechargeable Lamp

ILR330

30 LED rechargeable lamp.

Features:

- Oil/water resistant (IP68) heavy-duty rubber and polycarbonate case.
- Lasts up to 6 hours when fully charged.
- Adjustable brightness.
- Optional flashing mode.
- Foldaway swivel hanging hook.
- Powered by high capacity lithium-ion polymer batteries.

Comes complete with bench/wall mountable charging base.

Rated to IP68

EDISON Super Bright LED Rechargeable Spotlight

ELRS001

Weatherproof. High and standard brightness mode. SOS distress signal. Emergency light/blinking light. Two position handle, to ensure comfortable and ergonomic access. Swivel stand. Battery level indicator. 6V 4Ah sealed lead acid battery. Supplied with AC/DC mains charger and 12V DC car plug adaptor.

Battery operation times (18 hrs full charge):

- Standard brightness mode up to 8 hours.
- High brightness mode up to 3 hours.
- SOS distress mode up to 20 hours.
- Emergency light up to 25 hours.
- Emergency blinking light up to 50 hours.

MATLOCK**Webbing Slings**

High strength to weight ratio, light to handle and easy to use. Shock absorbing construction and wide load bearing area produce a secure grip and eliminate damage to the load. All types are made from oil and acid resistant polyester, treated with a wear resistant impregnation. All sizes are colour coded to indicate 'SWL' (safe working load), rating and marked with traceability code. These ratings are for a straight line pull only. Other variations of pull are shown below along with the relevant 'SWL'.

All slings come complete with test certificate.

**Supplied with
Certificate of
Conformity**

Ratchet Cable Puller - 1300kg

Robustly constructed from galvanised steel with a powder coated body, hardened steel hooks with spring catches. It has a heavy duty swivel on the anchoring hook, 3.6m of 5mm aircraft cable giving a 1.5m pull and a sprung ratchet pawl. Suitable for pulling: trees, roots, fencing wires, vehicles, machines, boats, trailers, caravans etc.

Capacity	Order Code MTL-941	Price/1 RND
1300kg	-2020K	751.80

Chain Hoist

Made from high grade materials with alloy steel gears and hooks.

The unique, specialised outer design allows extra strength, durability and ensures protection of the gears from impact and dust. All load and hand chains are calibrated and supplied in an electro galvanised finish. The load chain is hardened grade 80 alloy steel. All top and bottom hooks are fitted with cast steel, heavy-duty catches. Blocks are to **B53243**. Chain is to **ISO 1834**.

The chain block is not only strong and durable but is safe and light, suitable for all capacity rated applications.

GROUP 946 FLOOR MATTING

SITESAFE Anti-Fatigue Matting

Standing on a hard floor for prolonged periods without anti-fatigue matting can cause pain and discomfort in the lower legs, feet and back. Fatigue reduces concentration and therefore productivity. Anti-fatigue matting will increase comfort and productivity for workers who stand for long periods and substantially reduces stress, tiredness, aches and pains from standing on hard floors at work. Introducing anti fatigue matting into the workplace can provide staff with a more comfortable environment, which in turn encourages increased efficiency, concentration and productivity.

Diamond Zone

Manufactured from extremely hardwearing rubber capable of operating in high temperature environments. Diamond surface provides greater traction with extended wear and can be easily cleaned. Interlocking tile system enables the user to produce any required length. Also offers insulation against cold floors.

Colour: black.

Thickness: 12.5mm.

NEW

Thickness	Size (mm)	Order Code SSF-946	Price/1 RND
12.5mm	700 x 800	-2640D	687.90

Work Mat

Hard-wearing SBR rubber construction. Raised circular surface for superior slip resistance - suitable for wet conditions. Features a moulded bevelled edge to reduce tripping. Conforms to Slip Resistance Test **EN13552 Category R10**.

Colour: black.

Thickness: 14mm.

NEW

Thickness	Size (mm)	Order Code SSF-946	Price/1 RND
14mm	900 x 1500	-8460F	1081.00

Knee Saver Mat

Manufactured from a closed cell PVC/nitrile blend. Reduces knee pain and lower back stress caused by regular kneeling, ideal for pain relief during floor fitting. Resistant to oils and chemicals.

Colour: black.

NEW

Size (mm)	Order Code SSF-946	Price/1 RND
530 x 360 x 25	-4650R	210.50

Ortho Lite

Cost effective anti-fatigue matting. Offers the user relief from fatigue caused by standing. Insulates against cold concrete floors. Ideal for use in dry environments. Pebble surface provides additional traction.

Colour: charcoal.

Thickness: 6mm.

NEW

Size (mm)	Order Code SSF-946	Price/1 RND

900 x 1820	-5070H	603.70

Ribbed Mat

Durable mat, manufactured from hardwearing natural rubber. Fine ribbed surface has effective slip-resistance. Provides insulation from cold concrete floors. Can also be used on workbenches to prevent component damage.

Colour: black.

Thickness: 3mm.

NEW

Thickness	Size (mm)	Order Code SSF-946	Price/1 RND
3mm	900 x 2500	-6760P	466.90

MATLOCK**Door
Controls**

This comprehensive range of Door Controls feature varying power sized units for many different door applications. They come with a choice of architectural covers which are each available in 26 different plated or colour coated finishes. To help select the correct closer for you, each unit has a listing showing their key features, certification numbers and fire ratings. Plated arms are available on certain units only, and test certificates are available upon request.

BS EN1154 Classification

This standard classifies door closers using a 6 digit coding system. Each digit relates to a particular feature of the product measured against the standards performance requirements.

Digit (1) - Category of use:

'3' denotes the unit is for closing doors from at least 105°.

'4' denotes the unit is for closing doors from 180° open.

Digit (2) - Durability:

'8' successfully completed 500,000 test cycles.

Digit (3) - Test door mass/size:

Seven grades are identified as shown in the table below (where a closer provides a range of power sizes both the minimum and maximum sizes shall be shown):

Power size	Test door mass	Recommended door leaf width
1	20kg	750mm
2	40kg	850mm
3	60kg	950mm
4	80kg	1100mm
5	100kg	1250mm
6	120kg	1400mm
7	160kg	1600mm

Digit (4) - Fire behaviour:

'0' denotes the unit is **NOT** suitable for use on fire/smoke doors.

'1' denotes the unit **IS** suitable for use on fire/smoke doors.

Digit (5) - Safety in use:

'1' all door closer units are required to satisfy the essential requirement of safety in use.

Digit (6) - Corrosion-resistance:

'0' - indicates no defined corrosion-resistance,

'1' - indicates mild corrosion-resistance,

'2' - indicates a moderate level of corrosion-resistance,

'3' - indicates high corrosion-resistance,

'4' - indicates very high corrosion-resistance.

Within this section units have been tested to **BS EN1154**, with many units also having been tested to current Certified testing and CE test criteria. Therefore, the 6 digit classification is shown against each of the varying units, thus indicating their performance and grading under **BS EN1154**.

Budget Contract Door Closer**Size 3 Mechanism 28730**

Silver finish. **CE** tested. Closing force size 3

(**EN1154**). Maximum door width 950mm.

Suitable for doors 40 - 60kg.

Adjustable latch action.

Fire tested to **BS EN1634-1**. 1 hour fire rated.

Self handing (fits to left or right hinged doors). 180° opening (retains control of door when opened 180°).

Specification:

CE 1121.

Certifire approved: CF600.

Meets EN1154: yes.

Fire tested to EN1634: 1½ hours.

Power size: 2 - 4.

Application: universal.

Arm assembly: projecting arm.

Architectural cover: mechanism only or 92 cover.

Closing speed: adjustable.

Latch action: adjustable.

Stand open option: yes.

(NOT for use on fire doors).

Backcheck: no.

Delayed action: no.

Guarantee: 10 years.

PRODUCTS ARE ONLY AVAILABLE VIA YOUR DISTRIBUTOR

This panic hardware range of emergency exit devices contains products that are certified to the European CEN standards **BS EN179 & BS EN1125** and offers a design to give optimum safety and security. All products meet with the required standards in today's market. They have an anti-thrust mechanism to protect against attack, they carry a ten year manufacturer's guarantee and are two hour fire rated. Standard sized units are suitable for doors up to 2440mm high and 1220mm wide. Special sized vertical shoots, horizontal bars, keeps and pullman catch kits are available on request.

BS EN1125 Classification

This is the European standard for Panic Exit Devices. This determines that a Panic device must be fitted where members of the public are present and have no prior knowledge of the exit or hardware.

BS EN179 Classification

This is the European standard for Emergency Exit Devices. This determines that in emergency situations occupants will have prior knowledge of the exit and panic situation is unlikely to occur. Each standard is tested and evaluated and a 9 digit code is produced.

BS EN 1125 & BS EN 179 are harmonised under the Construction Products Directive and products must therefore carry the CE mark.

Security Hasps

Manufactured from hardened steel with a duplex nickel plated anti-corrosive finish. The hinge pins, fixings and assembly are concealed with a folded edge for tamper protection. Supplied with fixing screws.

Double Hinged:

Models can be used for internal and external corner mounting.

Triple Hinged:

Models also allow for use on non-flush fitting (stepped) surfaces.

8120, 8110, 8100* & 8150*:

For use on standard duty and domestic applications.

8200* & 8160*:

For use on medium duty applications.

*Supplied complete with door reinforcement plates for improved security.

GROUP 950 PADLOCKS

MATLOCK Security Ratings

All padlocks have a rating to indicate how secure they are, this is based on material, hardening, extra coating, shackle diameter, body width, and other security features such as anti-pick locks and 3, 4, 5 or 6 pin cylinders.

Rating	Uses
1 - 2	Minimum security for indoor and outdoor use on tackle boxes, suitcases and drawers etc.
3 - 4	Minimum to medium security for indoor and outdoor use on garages, cabinets, toolboxes, gates, truck doors, lockers, sheds, bicycles etc.
5 - 6	Medium security for indoor and outdoor use on garages, cabinets, toolboxes, gates, truck doors, lockers, sheds, bicycles etc.
7 - 8	Medium to maximum security for indoor and outdoor use on store front and factory gates, large tool chests, construction site storage etc.
9 - 10	Maximum security for indoor and outdoor use on store front and factory gates, large tool chests and construction site storage etc.

Brass

Solid brass body with a hardened steel shackle and a double locking mechanism. For indoor and outdoor use on minimum to medium security items. 20mm: 3 pin cylinder. 30 and 40mm: 4 pin cylinder, 50 and 60mm: 5 pin cylinder. *Single locking only.

Self-Adhesive Floor Tape

Provides extra traction on slippery surfaces such as hazardous floor areas, industrial machinery, playgroup apparatus, stair treads and various other potentially slippery areas. It is designed to provide a quick, effective and economical solution to the problem with a self-adhesive back for ease of installation. It can be used indoors or outdoors and is resistant to water, motor oil, detergents, solvents and UV light, providing a wide variety of anti-slip solutions.

Roll length: 18m.

MATLOCK CHANDLERY

Welded Straight Link Chain

Often used for common everyday uses such as trailer ties and door stays as well as the handling of materials in industry. The chain has the weld placed at the side of each link of chain. A popular and versatile product. Welded chain is light and strong, ideal for general-purpose applications such as park swings, garden use, security etc. Manufactured from mild steel. Supplied in 10m length packs in boxes (other lengths are available on request).

Japanned

From the ancient Japanese method of stove enamelling. Results in an attractive shiny black surface. Ideal for outdoor use.

Link Size (mm)	Rec. Loading	Length per Box	Weight each	Order Code MTL-978	Price/1 RND
3 x 21	50	10m	1.60kg	-1010K	204.20

Effective solution that guarantees satisfactory BARRIER CONTROL in any environment

Traditional systems for controlling people traffic using standard barriers connected via a chain or belt going pole to pole are associated with the continuous problems of maintaining a safe place to work. Even expanding barriers or self-retractable barriers could break, fall down or blow away exposing people to unnecessary and unacceptable risk. The cumbersome nature of the sturdier systems also limits their usability, making them less flexible and impairs their portability. These problems are magnified in areas that have to cope with work space restrictions and hazardous working conditions such as those found in the offshore gas and oil industry. Barriers are a key requirement of the Health and Safety (Safety Signs and Signals) Regulations.

The 'Z-Barrier' system is the most innovative improvement in temporary safety barriers and provides an effective solution that

guarantees satisfactory barrier control in any work environment. 'Z-Barriers' are patent pending for the unique design that ensures barriers are prominent and remain in position, for all physical and environmental conditions.

Manufactured from a unique, reinforced PVC-based double-sided warning tape, with a high visibility day glow pattern on one face and a night reflective pattern on the other face.

These are the most visible barriers available on the market today. Quick and easy to put up, they are easily fastened to any anchor point or each other, providing a flexible barrier across any opening, around objects or in multiple directions.

Elastic properties allow 'Z-Barriers' to expand and fit between points instead of being cut to length. They are inherently shock absorbing and resist any degree of wind load to prevent damage.
